

Campaign Report

WARM UKRAINE

Power generators for hospitals and shelters

Organizer

Institutional Partners

Business Partners

The warM Ukraine campaign was launched in November 2022. Its goal was to secure hospitals and shelters in Ukraine with power generators. The first stage was to deliver the generators to two hospitals in Chernivtsi.

After 4 months of the campaign, the necessary equipment was delivered **to 6 hospitals and one water pumping station** (supplying 4000 people, including a hospital).

A 120kW generator purchased for the funds collected among Business Partners and private donors. Received by Chernivtsi Regional Psychiatric Hospital. Transported from Netherlands to Ukraine by Yukon Foundation from Chernivtsi.

A 120kW generator sponsored and transported by Zurich Insurance Group to Clinical Maternal Hospital No. 2 in Chernivtsi.

A 100kW generator sponsored by Capita Polska, transported by Yukon Foundation and Unity&Strength Foundation.

Delivered to the City of Vovchansk to power the local water pumping station, providing water to 4000 people.

Two smaller generators, 6,5kW, donated by DPX Power were transported along with the big one and delivered to 2 hospitals in Kharkiv.

2 generators of 90kW purchased with funds raised as a part of the campaign were donated to 2 hospitals in the City of Kropyvnytskyi. The transport was patriially sponsored by BP and partially by the transport company.

SUMMARY

Baudouin Generator 120 kW	20 000,00 EUR	REGIONAL MUNICIPAL NON-COMMERCIAL ENTERPRISE CHERNIVTSI REGIONAL PSYCHIATRIC HOSPITAL, CHERNIVTSI
YTO Generator 100kW	16900,00 EUR	CITY OF VOVCHANSK, MILITARY ADMINISTRATION OF CHUHUIV DISTRICK, KHARKIV REGION (WATER PUMPING STATION)

Generator 120kW	Price unknown	CLINICAL MATERIAL HOSPITAL NO. 2, CHERNIVTSI

The warM Ukraine campaign can therefore be considered a joint success. **We would like to thank** all Institutional and Business Partners who contributed to it, both financially and by supporting the communication. This does not mean, however, that the needs of our Ukrainian friends have disappeared.

108 shelters for civilians are being organized by Unity&Strength Foundation in Kharkiv and Sumy Region. The project, named "Life Corner" will be implemented in the villages of Kucherivka, Petropavlivka, Synkivka and Podolia. This is a region heavily affected by warfare. There is no electricity, gas or water there. Water is available only in places where there are wells.

The shelters will be equipped with supplies necessary for the survival of the civilian population, including: long-term food, water, hygienics, small generators etc. Thanks to the cooperation and trust built over the last 12 months, the Forum Foundation and the Chamber are working with a partner in the Netherlands, who proposed to send 52 generators with a capacity of 5.5 kW to the region, without receiving payment in advance.

The Forum Foundation undertook to make every effort to cover the costs of the generators. The generators were transported from the Netherlands to Poland thanks to the generosity of Fracht Company and will soon be delivered to Kharkiv. The Swisschamber intends to support the Forum Foundation in its activities after the communication of the warM Ukraine campaign has been closed.
